This order is binding. The registered price counts as your highest bid, therefore you might get the work for a lower price. On top of the price for the work, we might have to charge an additional sales tax. If applicable the amount of said tax will be marked in the auction catalog, on the labeling on-site or on the internet page of NAK. The tax has to be paid with the costs for the work itself. If applicable a price for a frame might be added, too, but this will be clear in the description of the items. The purchaser acknowledges these conditions of contract.

**Please keep in mind:** This written bid is only of value, when you received a confirmation from us via email.
